

GEU-1: Introduction to Globus Toolkit
4 November 2004, 1300 – 1600 hours

Objective of Course:

To provide grid administrators the capability to setup and maintain a Globus Grid resource and how to integrate it with the National Grid Pilot Platform (NGPP).

Course Outline:

- The Globus Toolkit
- How to setup a Globus Grid Node
 - Basic software required
 - Setting up the CA (if required)
 - Setting up Globus Toolkit
 - Additional software (e.g. NWS, MyProxy, Condor-G)
- Integration with NGPP

Audience: Grid Administrators

Instruction Type: Workshop

Prerequisites for this workshop:

- a) Must have attended Course C1, or
- b) Have relevant experience in the area covered by the course. Determination of relevance of experience will be assessed by the NGCC team, and will be handled on a case by case basis.
- c) Must bring along a laptop with at least 512MB RAM**

No Show Fee: A charge of \$50 will be levied if the attendee does not turn up for the course, or cancels his application for the course within 24 hours from the start time.

This is a FREE course and registration is on a first-come-first-served basis as seats are limited.

Date : 4 November 2004
Time : 1300 to 1600 hours
Venue : The Big One, 21 Heng Mui Keng Terrace, Singapore 119613
